

malin wättring 4 & 8 - glöd

On the 1st of April will Malin Wättring 4 & 8 release their debut album Glöd. The music is a symbiosis between Malins compositions and free, intuitive improvisation. The one hour long double-vinyl involves two constallations, MW4 & MW8. The foundation consists of a quartet expanded with four additional musicians to an octet.

Malin's compositions have been born out of a desire to explore inherent creativity and creative joy. The intention was to look beyond the "right and wrong" and instead follow the ear and gut feeling. The album consists of six compositions, all of which are long. The music is taking its time, and there is plenty of room for the eight musicians to express themselves. The sound is sometimes fragile, sometimes powerful, sometimes challenging naked, sometimes ugly, sometimes beautiful. The intention has been to interpret the present and meet each other musically.

Recorded and mixed by Johannes Lundberg
