

With their swinging and melodic original music, Makross has established themselves as one of our most prominent jazz live acts! Their fourth album “Soppatorsk” on Havtorn Records is the result of an earlier collaboration with some of the best musicians of the Nordic countries. On Soppatorsk Makross develops new sounds and ideas and the album features guest appearances by Fabian Kallerdahl (pi).

Swedish jazz quartet Makross debuted in 2012 and has since frequently toured in- and outside of the Nordic countries. During the pandemic year of 2020 the project “Mutual Acquaintances” was realized, which preceded this release with new music and guest appearances. Makross fourth release features more complex arrangements, new instrumentation and guest appearances by the magnificent pianist Fabian Kallerdahl. Makross sound is rooted in the American jazz tradition from the 50’s and 60’s as well as a Nordic touch, and with both older and more modern influences like Ornette Coleman, Charles Mingus and Steve Lehman.
