Henningsson/Hängsel Septet  
plays the music of Henningsson/Hängsel

Henningsson/Hängsel Septet, a seven piece band based in the Öresund region, is now releasing their debut album. On this album, "Plays the music of Henningsson/Hängsel", 11 compositions, the result of over a year of work and cooperation between Andreas Henningsson (double bass), and Petter Hängsel (trombone), are presented.

The idea for the band came together when Petter and Andreas worked together in Petter Hängsel Trio, in which the drummer of the septet, Kristoffer Rostedt, also is a member, when the two expressed a dream and desire to write music for a bigger ensemble, with the possibility for larger, and even orchestral, arrangements. After comparing ideas and reference points for the upcoming music, the work began.

For members of the band, they have chosen five musicians they both look up to and work a great deal with; from Malmö based quartet Makross – Jens Persson and Rasmus Nyvall on reeds, and Kristoffer Rostedt on drums, from Copenhagen based septet Horse Orchestra – Erik Kimestad Pedersen on trumpet, and from the Norrbotten Big Band (and Petters family) – Björn Hängsel on bass trombone.
