Standards

## *John Venkiah & Rasmus Nyvall - Standards*

Rasmus and John have shared experiences, music and above all friendship since 2006. Upon meeting, they immediately felt a personal and musical connection. The musicians left for Malmö in 2008 to continue to study jazz, where many of their musical projects were born, both together and apart.

When John moved from Malmö to Stockholm in the spring of 2021, they decided to perpetuate something that had been with them their entire friendship - their love for jazz standards. This album contains interpretations of both renown standards and compositions by some of the giants of the genre. Spontaneity, simplicity and intimacy are central elements.

Rasmus Nyvall can otherwise be heard with the group Makross who released their fourth album "Soppatorsk" in May 2022.

John Venkiah's group John Venkiah Trio are among his most common jazz constellations, who's third album "On to Something Good" was released in May 2021.
